

Maximize Enterprise Vault with Our Complete Set of Tools and Services

Globanet is one of the earliest and most comprehensive email archiving practices.

In 1999, we became the first certified Enterprise Vault (EV) consultancy in North America. Since then, we have successfully delivered over 300 EV projects, including some of the largest and most strategic EV deployments.

Along the way, we have assembled a complete set of services and solutions that help you maximize your investment in Enterprise Vault.

Our staff of EV engineers is one of the largest in North America. Moreover, we operate **one of the largest Enterprise Vault software development teams in the world**. Our developers have deep expertise with the EV API, and have customized and integrated EV to meet some of the toughest client requirements.

Rounding out our offerings is a unique portfolio of proprietary software tools that extend and improve on EV's functionality, delivering an enhanced EV experience.

To learn more about how we can maximize EV for you, please contact us. A complete Enterprise Vault practice awaits.
